

Summary of 2010 Discipline Data Validation Analysis

(Note: The 2011 Discipline Data Validation Analysis will be combined with the 2012 Discipline Data Validation Analysis and disseminated to districts as a single release in late November 2012.)

2010 Discipline Data Validation

- Includes: 7 basic indicators plus 2 report only indicators.
- Evaluates: All school districts and charters (except charters are not included in Indicator #2, #3 and #9).
- Uses: Data from the 2007-2008, 2008-2009, and 2009-2010 PEIMS Summer/Submission 3 (425 Record).

278 districts¹ districts were identified under the seven basic indicators. Report Only (RO) indicators do not require an intervention until such time as they become “live” indicators, usually after a period of two years.

Detailed information on the Discipline Data Validation indicators can be found in each year's *Discipline Data Validation Manual*: <http://www.tea.state.tx.us/pbm/DVManuals.aspx>.

¹ This is a duplicated count that includes districts that were identified under more than one indicator. The unduplicated number of districts is 240.

² Data for all districts were reported for information and planning purposes only.

³ The total selected campuses were printed in parentheses for indicator #9.

* RO = Report Only.
