Hi,

I am writing concerning redistricting the congressional districts for Texas, specifically TX 21 and 35. I live one block from TX 35, which would be understandable if I was at the edge of town. But I'm not. I am right in the middle of Austin, TX, and yet share a district with people in Fredericksburg and San Antonio! This is nonsense. I am not being represented and I would like an independent committee to review the districting to make things more equitable, so that my representative cares about my vote.

I've attached my resume because I am a data guy and I am offering to help solve this problem. Please do something.

Thank you,  
Rick Dude
