Regarding: Congressional

Message:

Honored State Senators, you are tasked with creating districts that allow the people who live there to be fairly represented and their voices heard. This task is the very essence and heart of US democracy, and I pray that you rise above self- and party-interest as you go about this important work. I live in US Congressional District 17. My views, which I share with the vast majority of my neighbors in suburban Wells Branch have not been represented in this District in the past decade. In fact, my most recent 'representative' was so assured of re-election without my vote, that he had no qualms about blocking suburban constituents from his social media accounts merely for disagreeing, and he held only "telephone town halls" in this part of the District rather than facing us in person (even pre-Covid). My newly elected 'representative' didn't even campaign in this area in 2020. Our voices are unheard because they are tied to the voices of rural Texans North of us. Texans with very different views and interests; just as valid and worthy of representation as my own. Please redraw the 17th to allow both its rural and suburban constituents a voice in our federal government again. It is your most sacred duty to uphold the integrity of our representative democracy, and I implore you to do so faithfully, and without prejudice. Respectfully, Jeaneane McNulty
