Message:

All US citizens whether they are people of color or Asians should be able to voice their ideas and vote. No one should be excluded. Today, our world is diverse. If you do not understand diverse come to the public schools and observe the students of different nationality talking, socializing, learning, eating, and playing with each other. Adults are the ones that still have that blind over their eyes and heart. Children see and play with children of different nationality because they see each other at the same same age. We adults need to learn from children. I asked that if it true that you removed people of color (African American, Latinos, etc) and Asian from the group that you rethink your closed mind and add them back to the group of redistricting. Thanks for reading my response.
