Affirm public info: I agree

Regarding: Senate

Message:

I cannot see the detail of the proposed maps as to how my specific SD changes. But please answer my question observing the state as a whole. Why are most of the districts across the state shaped generally in squares or rectangles, except for all the urban areas? I'd like to see squares and rectangles in every place. I'm inclined to conclude special gerrymandering is taking place in those cities, and that's not democratic or fair.
