Message:

Based on census results, Texas has grown significantly. The awareness of what this means for Texas is also known by its citizens. It is essential that all district lines are drawn legally, fairly and without bias. The power of the people should reflect in any decision made in developing party lines. This determines availability of civil services, federal funding, and local funding. Are you really for the citizens of Texas or are you selfishly thinking of the power you are trying maliciously to maintain? It appears that you are not for Texas Citizens by holding this session against Texas Constitutional Rules. Do your job with dignity, ethically, without prejudice and with the oath you took to serve the people of Texas. Texas would not be where it is today without every Texan doing their part and each part includes all races, genders, ethnicities and faiths. Do what's right for Texas and the citizens of this state, not yourself.
