Message:

The districts in Texas are so ludicrous that a font has been created from the shapes of districts. From my perspective, the goal of redistricting is to allow lawmakers to choose their constituents instead of constituents being able to choose their lawmakers. My opinion on this is strengthened by the interactions that I have had with my own representatives who have told me (through their aides who man the phones) that my opinions do not matter because I do not agree with the stance of the representative. I want an independent outside agency to be tasked with drawing the districts in Texas and I want to know what criteria they will prioritize in their task.
