## EDUCATORS, PARENTS and STUDENTS FOR STUDENTS WITH DISABILITIES PARTICIPATING IN GRADUATION CEREMONIES

Many students with disabilities whose individual education program will continue after they have attended 4 years of high school wish to celebrate their accomplishments by participating in graduation ceremonies with their classmates. For them, not being allowed to participate in graduation until several years later when their same age peers have left high school diminishes this important experience.

Therefore, we the undersigned educators, parents and students ask the Texas Legislature to allow students with disabilities to participate in graduation ceremonies after they have completed 4 years of high school but have not completed their IEP.
