Message:

It is clear that the new map of Senate districts was drawn with little regard for the interests and rights of voters and with maximum regard for the sinecures of senators. Districts should be as compact and coherent as possible in compliance with the requirement for equal representation. Communities of like backgrounds - whether ethnic, racial, linguistic, economic or cultural - should be represented by people from those backgrounds. This proposed map has enough asinine pieces to make a professional jigsaw puzzle maker laugh. No Texan should have to travel half a day to get to their senator's district office. Go back and try again.
